

Agenda

IN-PREP & HEIMDALL Workshop: Beyond the Technical: Ethics and Policy of Transboundary Disaster Management Platforms **PSCE Conference - Lancaster, UK - 4 June 2019**

13:00 - 13:20 Introductions

13:20 - 14:15 World Café: What (else) Could Go Wrong

If you had the ideal system for transboundary collaboration and crisis information sharing, what could go wrong around you that make it crash?

14:15 - 15:00 Affinity Mapping

Working together, identify and map out thematic/main issues, problems, and challenges in making a transboundary disaster preparedness system acceptable. Discussion will range from inter-agency, to cross-border, to EU-level.

15:00 - 15:20 Coffee

15:20 - 15:45 IN-PREP and HEIMDALL Project Presentations of Tools

15:45 -16:45 Design Fiction

Working in small groups, develop scenarios that look ten years in the future to anticipate what collaborative crisis work looks like and different potential tools/technologies impact that. What else would you need in terms of recommendations, processes, regulations, policy, to do this transboundary crisis management?

16:45 -17:15 Presentations of Scenarios

17:15 -18:00 Whole Group Discussion

As a group, work together to articulate actionable solutions to all the challenges and issues identified throughout the afternoon. What forms these solutions should take? How do you need those solutions to be presented to be useful or valuable?
