October 2019, TTX3 at
Kampen

Connecting to the Scenario Building Tool

- Receiving and visualizing the injects created by the Scenario Building Tool

Connecting to the Scenario Building Tool

- The Incident Management window displays all data sent by the Scenario Building Tools that contains only textual information.

The screenshot shows a software interface with a satellite map background. Two windows are overlaid on the map:

- Incident Management**: A table with columns for Info ID, Info Type, Time Occured, Text, and Hospitalisation. It contains five rows of incident data.
- Hospitalisation Table**: A table with columns for City, Hospital Name, Sick, Deceased, and Deceased In House. It contains three rows of hospitalisation data.

The interface also includes a search bar at the top, a navigation menu on the right, and a status bar at the bottom.

Info ID	Info Type	Time Occured	Text	Hospitalisation
1176	MASSMEDIA	2019-06-06 00:0...	test	Show
1180	HOSPITALISATION	2019-06-06 00:0...	Test message	Show
1010	WARNING	2019-09-09 11:3...	Here, it is the des...	Show
1265	HOSPITALISATION	2019-06-06 16:0...	test	Show
1260	MASSMEDIA	2019-06-06 15:0...	danger	Show

City	Hospital Name	Sick	Deceased	Deceased In House
London	St. Luis	2	1	2
London	Some Hospital	4	2	2
London	Some other Hospi...	3	0	2

Connecting to the LCMS

- Receive and display LCMS synopsis

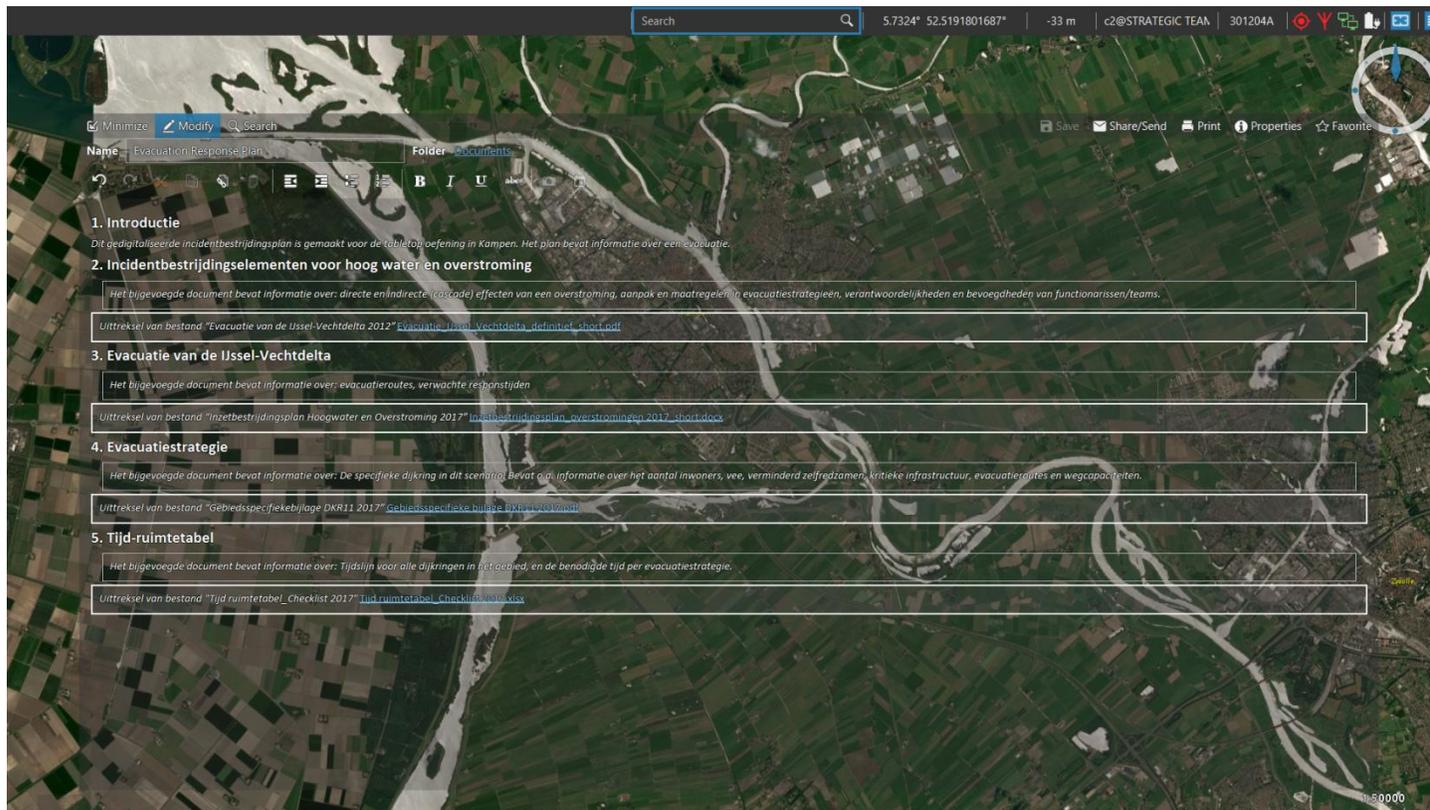

The screenshot displays a web application interface. At the top, there is a search bar and a status bar showing coordinates (5.3543° 52.3115870927°), a scale (-6.2 m), and user information (c2@STRATEGIC TEAM | 271016Z). Below the search bar, there are navigation and utility icons (Save, Share/Send, Print, Properties, Favorite). The main content area is divided into several sections:

- Grafisch beeld**: A satellite map of a coastal area with a large body of water and surrounding land.
- Bestuurlijke besluitvorming**: A table with columns for 'nr', 'Actie/Besluit (A)/(B)', 'Tijd', 'Omschrijving', 'Actie/besluit voor', 'Status:lopend/afgehandeld', and 'Opmerking'. The table contains 14 rows of data.
- multidisciplinaire informatie**: A section containing a message: "New message to IN-PREP Hello Leo, test" and a "Police" section with the text "hello police, message 1".

At the bottom right of the map area, there is a scale indicator showing "1:0000".

Evacuation Response Plan

- The response evacuation plan contains attached documents related to the evacuation of the city of Kampen.

Optional features

- There are 3 optional features (works between 2 FORTION Civil C2) :
 - Template and Documents management
 - Document sharing
 - Instant Messaging

Template and Documents management

- To create structured documents, Civil C2 proposes the Template management mechanism.

The screenshot displays the Civil C2 interface. At the top, there is a search bar and user information: 'c2@STRATEGIC TEAM' and '301356A'. The main area is a satellite map of a river delta region with a blue circle highlighting a specific location. Below the map, a document editor is open for a template named 'Evacuation Response'. The editor shows a hierarchical structure with levels and paragraphs. The first level is '1. Introductie'. The second level is '1.1' with a paragraph containing the text 'You may enter some default content here'. The third level is '2. Incidentbestrijdingselementen voor hoog water en overstroming' with a paragraph containing the text '<i>Uittreksel van bestand "Evacuatie van de IJssel-Vechtdelta 2012"</i>'. The fourth level is '3. Evacuatie van de IJssel-Vechtdelta'. The interface includes various icons for navigation and editing, and a toolbar on the right side.

Document sharing

- Have the possibility to share / send

The screenshot displays a software interface for document sharing. A central dialog box titled "List of recipients of dispatching" is overlaid on a satellite map. The dialog box contains two columns of recipient lists, each with a "Select all" button and a search field. The left column lists various organizations and their status (all "Offline"). The right column lists "City Of Kampen", "Fire General Comm...", and "STRATEGIC TEAM", all with "Offline" status. Below the dialog box, a document list is visible with columns for Name, Modification date, Owner, Last modifier, Origin, Status, and Recipients. The document list shows three entries, with the first one selected.

Name	Modification date	Owner	Last modifier	Origin	Status	Recipients
☆ Archive of COP situation	301012Z SEP19	Organization (STRATEGIC TE...	c2	STRATEGIC TEAM	↑ Sending	City Of Kampen; Fire General...
Archive of COP situation	301011Z SEP19	Organization (STRATEGIC TE...	c2	STRATEGIC TEAM	↑ Sending	Fire General Commander
☆ Evacuation Response Plan	300925Z SEP19	Private (c2)	c2	STRATEGIC TEAM	Local	

Instant Messaging

The screenshot displays a tactical messaging application interface. The main view is a satellite map of a rural area with a river. A red-shaded polygon on the map is labeled "Flooding area". A blue icon labeled "Flood event" is placed within this area. The interface includes a search bar at the top, a toolbar on the right with various map controls, and a chat window at the bottom. The chat window shows a room named "Agency room" with the subject "Flooding Situation". The chat history includes a timestamp "Monday, 30 September 2019" and several messages from "STRATEGIC TEAM (c2)". A "Say:" input field and a "Send" button are at the bottom of the chat window. The bottom right of the map area shows a legend with "Flooding area" and "Flood event" entries.

IN-PREP

Thank you for your attention

Any questions?
